

bank on security

Jack Hausmann and Honeywell—in touch with the needs of Georgia banks.

When it comes to security, over 400 financial institutions in the southeast bank on Jack Hausmann. As president of Southern Bank Equipment & Supplies, Hausmann is entrusted with delivering sophisticated solutions that help his clients safeguard their cash, assets, customers and employees. That's why he's standardized on Honeywell's VISTA controls and 6271 Touchscreen Keypad. The vibrant, full-color touchscreen features icons and menu-driven prompts that make operation simple—reducing false alarms and training time. It even provides his clients with vital, operational details—letting them access opening and closing reports with a simple press on the touchscreen.

Hausmann's keen understanding of his customers' needs, combined with Honeywell's cutting-edge technology, differentiates him from other dealers—giving him a competitive edge he can take to the bank.
